Synopsis: Public school transfers. Establishes a public school transfer program that allows the parent of a student to request a transfer for the student to enroll in: (1) a different public school in the student's base school corporation; or (2) a public school in a different school corporation. Provides an allocation of public funds for transfer students between the base school corporation and the receiving school corporation, and provides that the parent is responsible for transportation and any additional costs. Allows school corporations to enter into an interlocal agreement under which students whose legal settlement is in one school corporation may attend school in the other school corporation. Allows a student who has legal settlement in one school corporation and whose parent owns property for which the parent pays property tax in another school corporation to attend school in the latter school corporation without transfer tuition being charged. Requires a school corporation to provide notice to parents concerning the publication of the school corporation's annual performance report and concerning the right of students to transfer out of schools that fail to perform adequately.

Effective: Upon passage; July 1, 2007; January 1, 2008.

5	the following requirements are met:	
6	(1) The student's parent requests a transfer for the student.	
7	(2) The student's parent selects a school for the student to	
8	attend under the program.

10	(A) is in the student's base school corporation but is not the	
11	school to which the school corporation has assigned the	
12	student; or	
13	(B) is not a school in the student's base school corporation.	
14	(4) Except as provided in section 14(b) of this chapter, the

23	wishes to enroll in a school primarily for athletic reasons.	
24	However, a decision to allow a student to enroll in a school	
25	corporation in which the student does not have legal settlement is

11	a parent seeks enrollment of a student under the program:

14	school corporation to be out of compliance with a court order,
15	including a court order described in IC 20-26-11-19.
16	(b) Subject to subsection (a), a superintendent may not refuse to
17	enroll a student in violation of IC 20-33-1 or because the student

When calculating adjusted ADM for 2006 distributions, this subsection, as effective after December 31, 2005, shall be used to calculate the adjusted ADM for the previous year rather than the calculation used to calculate adjusted ADM for 2005 distributions. For purposes of this article, a school corporation's "adjusted ADM" for the current year is the result determined under the following formula:

STEP ONE: Determine the sum of the following:

- (A) The greater of zero (0) or two-tenths (0.2) multiplied by the result of the school corporation's ADM for the year preceding the current year by four (4) years minus the number of students who were included in the school corporation's ADM for the year preceding the current year by five (5) years and were not included in the school corporation's ADM for the year preceding the current year by four (4) years because the students transferred to another school corporation under IC 20-26-11-31.
- (B) The greater of zero (0) or two-tenths (0.2) multiplied by the result of the school corporation's ADM for the year preceding the current year by three (3) years minus the number of students who were included in the school corporation's ADM for the year preceding the current year by four (4) years and were not included in the school corporation's ADM for the year preceding the current year by three (3) years because the students transferred to another school corporation under IC 20-26-11-31.
- (C) The greater of zero (0) or two-tenths (0.2) multiplied by the result of the school corporation's ADM for the year preceding the current year by two (2) years minus the number of students who were included in the school corporation's ADM for the year preceding the current year by three (3) years and were not included in the school corporation's ADM for the year preceding the current year by two (2) years because the students transferred to another school corporation under IC 20-26-11-31.
- (D) The greater of zero (0) or two-tenths (0.2) multiplied by the result of the school corporation's ADM for the year

1	preceding the current year by one (1) year minus the
2	number of students who were included in the school
3	corporation's ADM for the year preceding the current
4	year by two (2) years and were not included in the school
5	corporation's ADM for the year preceding the current
6	year by one (1) year because the students transferred to
7	another school corporation under IC 20-26-11-31.
8	(E) The greater of zero (0) or two-tenths (0.2) multiplied by
9	the result of the school corporation's ADM for the current
.0	year minus the number of students who were included in
.1	the school corporation's ADM for the year preceding the
2	current year by one (1) year and were not included in the
.3	school corporation's ADM for the year preceding the
4	current year by one (1) year because the students
.5	transferred to another school corporation under
. 6	IC 20-26-11-31.
.7	STEP ONE: TWO: Determine the sum of the following:
. 8	(A) The school corporation's ADM for the year preceding the
9	current year by four (4) years multiplied by two-tenths (0.2) .
20	(B) The school corporation's ADM for the year preceding the
21	current year by three (3) years multiplied by two-tenths (0.2).
22	(C) The school corporation's ADM for the year preceding the
23	current year by two (2) years multiplied by two-tenths (0.2).
24	(D) The school corporation's ADM for the year preceding the
2.5	current year by one (1) year multiplied by two-tenths (0.2).
26	(E) The school corporation's ADM for the current year
27	multiplied by two-tenths (0.2).
28	Round the result to the nearest five-tenths (0.5).
29	STEP THREE: Subtract the STEP ONE amount from the
30	STEP TWO amount.
31	STEP TWO: FOUR: Determine the sum of:
32	(A) the school corporation's ADM for the year preceding the
33	current year; plus
34	(B) the product of:
35	(i) the school corporation's ADM for the current year minus
56	the clause (A) amount; multiplied by
57	(ii) seventy-five hundredths (0.75).
8	Round the result to the nearest five-tenths (0.5).
19	STEP THREE: FIVE: Determine the greater of the following:
10	(A) The STEP TWO FOUR and It
1	(B) The STEP TWO FOUR result.
.2	(b) A charter school's adjusted ADM for nurnoses of this article is
